Estimados amigos:

Estas palabras de bienvenida están dirigidas a todos los presentes en el XIII Congreso SOLACI'07 y el XVII Congreso CACI'07.

Otra vez en Argentina, otra vez en Buenos Aires, con las mismas ganas de que este evento sea de utilidad y grato para todos, sabiendo de ante mano que Latinoamérica es así, con todos sus encantos, toda su espontaneidad, toda su juventud y algunos pequeños errores que seguramente vamos a cometer; ustedes nos disculparán y nosotros trataremos de disimularlos.

La alegría de tenerlos aquí es superadora de todo el trabajo y esfuerzo que desde comienzos de 2006 venimos realizando un grupo de profesionales médicos y no médicos con reuniones semanales, actividad diaria y con la pasión necesaria para que un Congreso de este volumen y nivel de participantes pueda ser realizado a la altura que todos merecen.

El programa científico fue basado en la problemática internacional, pero con los matices necesarios para que la concurrencia latinoamericana se vea representada en su práctica intervencionista diaria, que es la esencia de la realización de este evento, precisamente aquí en Latinoamérica.

El enfoque de la clínica cardiovascular, incluyendo la diabetología, gerontología, pediatría, infectología, sin excluir los avances de la cirugía vascular y cardíaca, son motivo de encuentros conjuntos con expertos, que serán desarrollados durante los tres días del Congreso, dando una visión unicista del paciente.

Uno de los atractivos del programa de los eventos intervencionistas en todo el mundo es justamente mostrar cómo realizan la práctica los expertos internacionales y locales. En esa línea, SOLACI/CACI da un protagonismo destacado a la discusión de los "casos en vivo".

Nuevamente los enfermeros y tecnólogos en cardiología participan en este evento con sus importantes aportes e inquietudes.

Reciban mi agradecimiento los invitados y conferencistas internacionales que, recorriendo a veces largas distancias, se acercan a nuestro país para compartir con nosotros sus experiencias enriquecedoras; a los integrantes del Comité Organizador y Científico; a todo el staff del Congreso, extensivo a los miembros de las Comisiones Directivas de CACI y SOLACI, que han sabido ayudarnos cuando fueron requeridos.

Un especial agradecimiento a la industria relacionada al intervencionismo y a la industria farmacéutica por su apoyo y visión respecto de la práctica en América Latina.

Este evento nos proporciona una oportunidad única para confraternizar e intercambiar experiencias en nuestra extensa región latinoamericana y con los invitados y participantes del resto del mundo, y así sentirnos gratamente incluidos en el universo del intervencionismo.

Nuestro deseo es que disfruten de la calidez argentina, de la cual esperamos darles una pequeña muestra en los eventos sociales.

Nuevamente, ¡BIENVENIDOS A ARGENTINA!

*Dra. Liliana Grinfeld
Presidente
XIII SOLACI'07
XVII CACI'07*

Dear friends,

These welcome words are intended for all the attendants of the XIII SOLACI Congress '07 and the XVII CACI Congress '07.

Once again in Argentina, once again in Buenos Aires, we are keen on making this event useful and pleasant for everybody, knowing in advance that Latin America is special, with its charm, spontaneity and youthness, and even some mistakes we will make; you will understand and we will try to disguise them.

The joy of having you here overwhelms all the hard work and effort a team of medical and non-medical professionals has been doing since 2006, with weekly meetings and daily activities, with the passion that a Congress of this extent needs to be held as we all deserve.

The Scientific Program is based on international issues including the necessary nuances so that Latin American attendees feel highly represented in their daily interventional practice, which is the aim of this event.

The approach of cardiovascular practice including diabetology, gerontology, pediatrics and infectology, without leaving aside the advances in vascular and cardiac surgery, is the essence of the joint meetings with experts that will take place during this 3-day event, thus providing us with a comprehensive vision of the patient.

One of the most attractive issues in the program of interventional events worldwide is how international and local experts perform their practice. In this regard, SOLACI/CACI emphasizes the discussion of Live Cases.

Once again, Nurses and Technicians in Cardiology will take part in this event with their contributions and concerns.

I would like to thank particularly our international speakers and guests for coming from distant places to share with us their enriching experiences; the members of the Organizing and Scientific Committees and all the SOLACI '07 staff, as well as the SOLACI/CACI Boards that have helped us every time we required.

A special thanks to the industry related to interventional cardiology and pharmaceutical companies for their support and vision regarding the practice in Latin America.

This event provides a unique opportunity to get closer and share experiences in the wide Latin American region with invited guests and participants from all around the world and thus allowing everybody to be part of the interventional universe.

We deeply wish you enjoy the Argentine warmth that will be partly reflected in our social activities.

*Once again, **WELCOME TO ARGENTINA!***

XIII SOLACI'07 - XVII CACI'07 Scientific Program

Wednesday 4

PACIFICO AUDITORIUM

● **Basic and Clinical Research in Argentina**

Wednesday 4, 09:30-11:00

Chairmen: Liliana Grinfeld, Rafael Bernal Castro

Panelists: Alberto Crottogini, Pablo Argibay, Carlos Tajer, Branco Mautner

Learning Objectives: To understand current problems in basic and clinical research. What should be done by investigators, centers and sponsors to improve research in Argentina.

- Current Valid Regulations: Can We Improve Them? Can We Optimize The Time? Analía Perez
- Frequent Ethical Observations in Investigation Protocols. Martín Seoane
- Sponsor-Hospital-Investigator Relationship and Their Roles. Eduardo Raimondi
- Basic Investigation in Argentina. Where Are We? Where Are We Going? Ricardo Gelpi
- What Can We Do To Improve? Rafael Bernal Castro
- What Should Be The Role Of The Scientific Societies? Osvaldo Masoli
- Q&A and Conclusions.

● **World Congress of Cardiology 2008 Presentation**

Wednesday 4, 11:00-11:05

Presenter: Horacio Faella

● **Opening Conference: Atherothrombosis, Diabetes, Revascularization Conference by Valentín Fuster M.D.**

Wednesday 4, 11:05-12:00

Chairman: Daniel Berrocal

Speaker: Valentín Fuster

● **Lunch Symposium Will New Generation DES Reduce the Risk of Late Stent Thrombosis? (Sponsored by Biosensors)**

Wednesday 4, 12:00-13:00

Chairman: Eberhard Grube

- DES Safety: Where Are We and What Have We Learnt? Eberhard Grube
- DES Considerations: Stent Design, Coatings, Healing and Late Thrombosis. John Schulze
- Biolimus A9: Past, Present and Future. Alexandre Abizaid
- Completed Trials and Registries: What Have We Learnt?
- Globalization of Clinical Research: The Wave of the Future. Liliana Grinfeld
- Conclusion and Discussion. Eberhard Grube

● **Left Main and Multiple Vessels Disease Management: We Should Not Ignore Historical Background.**

Conference by Valentín Fuster M.D.

Wednesday 4, 13:00-13:30

Chairman: Liliana Grinfeld

● **Hot Topics: The Clinical Physician's Point of View Comments by Valentín Fuster, M.D.**

Wednesday 4, 13:30-14:30

Chairman: Alfredo Rodríguez

- Clinical Application of MSCT64 in Patients with ACS in ICU. Enrique Gurfinkel
- Present Status of Clinical Application of DES. Carlos Tajer
- What Patients Does COURAGE Data Apply to? Arturo Cagide

● **The Great Debate: Should We Intervene Patients With Stable Coronary Disease?**

Wednesday 4, 14:30-15:00

Learning Objectives: After recent evidence, this debate should give the audience enough information on invasive treatment in patients with stable angina.

Chairman: Efraín Gaxiola

- Pro: Carlos Macaya

- Cons: Ricardo Iglesias

● **Percutaneous Valve Repair**

Wednesday 4, 15:00-16:30

Chairmen: Alain Cribier, Igor Palacios

Panelists: Jorge Wisner, Deborah Nercolini, César Esteves, Carla Agatiello

Learning Objectives: To receive information on state of the art percutaneous aortic valve replacement, which will eventually benefit patients. Evidence from the latest trials in this field.

- Aortic Balloon Valvuloplasty Revival. Igor Palacios
- Update on Balloon Expandable Aortic Valve. Alain Cribier
- Update on Self-Expandable Aortic Valve. Eberhard Grube
- Update on Mitral Valve Repair. José Condado
- Q&A

● **Joint Session SAC@SOLACI: ST-Elevation Acute Myocardial Infarction**

Wednesday 4, 16:30-17:45

Chairmen: Osvaldo Masoli, Alberto Sampaolesi

Panelists: Horacio Pomes Iparaguirre, Costantino Costantini, Horacio Casabé, Daniel Piñeiro

Learning Objectives: The audience should be able to define where and to whom each strategy can be applied.

Wednesday 4

- Current Role of Fibrinolytics and Antithrombotics. Carlos Tajer
- Optimizing Primary PTCA Outcomes According to Time and Patients. Dariusz Dudek
- Adjunctive Treatment. William O'Neill
- DES in Primary PTCA. Roxana Mehran
- Q&A

● Opening Ceremony

Wednesday 4, 18:00-18:30

Speakers: Liliana Grinfeld, Daniel Berrocal, Alberto Sampaolesi

Social Activities:

Welcome Cocktail – Hilton Hotel Comercial Exhibit

Faculty Gala

Champagne Reception and Tango Show at Sr. Tango
(Sponsored by Boston Scientific).
Shuttle available from Hilton Hotel.
Invitation Only

ATLANTICO AUDITORIUM

● SOLACI 2006 Case Review Session

Wednesday 4, 09:30-11:00

Learning Objectives: To discuss the strategies and one year follow-up of patients who were treated during SOLACI 2006 live sessions.

Chairman: Alcides Zago

Speakers: Rogerio Sarmento Leite, Paulo Caramori, Raul Rossi, Alcides Zago

Commentators: Costantino Costantini, Alejandro Martínez Sepúlveda, Carlos Ascanio Estevez, Jorge Bordagaray

● Lunch Symposium

ANGIOMAX Symposium

(Sponsored by Bagó-Ferrer)

Wednesday 4, 12:00-13:00

Chairmen: Liliana Grinfeld, José Gabay

Panelists: Marcelo Trivi, Alejandro Palacios, Rubén Piráino, Jorge Leguizamón

- Use and Benefits of Bivalirudin in the Cath. Lab
Augusto Pichard

● Carotid Stenting

Wednesday 4, 13:00-14:30

Chairmen: Marco Antônio Marino, Pedro Lylyk

Panelists: Aníbal De Sanctis, Carlos Vozzi, Alejandro Musacchio

Learning Objectives: At the end of this session, the audience should have updated information on the current level of evidence on carotid stenting, as well as results on sub-groups of patients. Different strategies and devices for specific situations will be discussed.

- Why Should We Treat Asymptomatic Patients with Severe Stenosis? Juan Carlos Parodi
- Should We Treat Octogenarian Patients? Giancarlo Biamino
- Protection Devices: Are They All The Same? Dierk Scheinert
- Carotid Stents: Are They All The Same? Alberto Cremonesi
- Carotid Stenting: Level of Evidence. Where Are We? Where Are We Going? Giancarlo Biamino
- Q&A

● Beyond Coronary Arteries: The Role of Cardiologists in Peripheral Interventions

Wednesday 4, 14:30-15:00

Chairman: Adolfo Cosentino

Speaker: Giancarlo Biamino

● Current Trends on Lower Limb Interventions

Wednesday 4, 15:00-16:30

Chairmen: Ari Mandil, Jorge Leguizamón

Panelists: Eduardo Picabea, Jorge Iruveda, José Allende

Learning Objectives: To understand and discuss non-invasive current diagnosis indications, techniques and outcomes of percutaneous interventions in patients with claudication. To be able to discriminate when, how and which patients should be studied and intervened.

- Non-Invasive Diagnosis of Peripheral Vascular Disease. Ricardo García Mónaco
- Cutting-Edge Strategies for Aorto-Iliac Obstructive Disease. Francisco Carnevale
- New Evidence in Superficial Femoral Artery PTCA. Giora Weisz
- New Tools and Strategies for Below-The-Knee Interventions. Dierk Scheinert
- The Role of Vascular Surgery in Patients with Critical Limb Ischemia. Patricio Zaefferer
- Q&A

● Renovascular Disease

Wednesday 4, 16:30-18:00

Chairmen: Marco Wainstein, Mario Fava

Panelists: Carlos Rojas Matas, Carlos Gadda, José Agüero, Juan Delgado Durán

Learning Objectives: To discuss when and how renovascular disease should be angiographically studied and treated. To update the technique and how to protect patients from contrast-induced nephropathy.

- Why Should Renovascular Disease Be Investigated? A Non-Interventional Perspective. Carol Kotliar
- Should All Severe Renal Artery Stenosis Be Treated? Ari Mandil
- Endovascular Interventions in Patients with Renal Transplantation. Valter Correia de Lima
- Optimizing Renal Artery Angioplasty Outcomes and Techniques. Hernán Bertoni
- Intrarenal Infusion of Fenoldopan to Prevent Contrast-Induced Nephropathy. Profilaxis of Contrast-Induced Nephropathy. Giora Weisz
- Q&A

XIII SOLACI'07 - XVII CACI'07 Scientific Program

BUEN AYRE A & B AUDITORIA

- **UBA-CACI Course Session: Meet The Experts**
Wednesday 4, 09:30-11:00

Chairmen: Marcelo Ruda Vega, Hugo Londero

Panelists: Igor Palacios, Giancarlo Biamino, Eduardo Sousa, Eberhard Grube

Learning Objectives: To discuss strategies and techniques for edited challenging cases presented by CACI fellows.

- **Joint Session FCA@SOLACI. Cardiovascular Interventions in Women**
Wednesday 4, 13:45-15:15

Chairmen: Andrea Abizaid, Ana Salvati

Panelists: Amalia Descalzo, María do Rosario Leite, Guillermo Fabregues, Oscar Alvarado

Learning Objectives: At the end of this session, the audience should have enough information on gender differences regarding symptoms, indications and outcomes of interventional procedures.

- Are There Any Differences Between Genders in the Diagnosis of Coronary Disease? César Serra
- Angioplasty in Women. Is It the Same that in Men? Ernesto Ban Hayashi
- Do Women Benefit From Primary PTCA? Dariusz Dudek
- Non-Cardiac Interventions in Women. Marco Antonio Marino
- Adjunctive Therapy in PTCA in Women. Roxana Mehran
- Q&A

BUEN AYRE C AUDITORIUM

- **Vulnerable Plaque and Patients**
Wednesday 4, 9:30 - 11:00

Chairmen: Ernesto Gurfinkel, Expedito Ribeiro

Panelists: Pedro Lemos Neto, Juan Manuel Telayna, Gilberto Nunes, Luis Mercado

Learning Objectives: To understand the problem of vulnerable plaque/patient. The audience will receive information on developing concepts on vulnerable plaque/patients and state of the art diagnosis and treatment options.

- Defining Vulnerable Plaque and Patients. Marco Costa
- Biomarkers and Clinical Predictors. Arturo Cagide
- Non-Invasive Diagnosis: From Echo to CT Angiography. Juan Granada
- Invasive Diagnosis: IVUS and Beyond. José Ribamar Costa
- Can We Cool Down Plaque and Patients? Marco Wainstein
- Q&A

- **Which Current DES Should Be On My Shelf?**
Wednesday 4, 14:30-15:00

Chairman: Jorge Wisner

Speaker: Eduardo Sousa

- **Update on First Generation DES**
Wednesday 4, 15:00-16:30

Chairmen: Eduardo Sousa, Alberto Sampaolesi

Panelists: Costantino Costantini Jr, Efraín Gaxiola, Paulo Caramori, Jorge Mrad

Learning Objectives: To get an update on the level of clinical evidence for DES and also understand the healing process. To receive an update on the two most-studied DES.

- Level of Evidence of First Generation DES. Sigmund Silber
- Taxus: Safety and Efficacy. Alexandre Abizaid
- Cypher: Safety and Efficacy. Gregg Stone
- The Healing Process of First and Next Generation DES. Marco Costa
- Final Message. Eduardo Sousa

- **Challenging Patients & Lesions**
Wednesday 4, 16:30-18:00

Chairmen: Fausto Buitrón, Alberto Suárez Nitola

Panelists: Jorge Mor, Ivo Petrov, Marcelo Queiroga, Juan Granada

Learning Objectives: To receive information on high-risk patients and/or strategies and outcomes for difficult anatomies.

- Optimizing Outcomes in Diabetic Patients with Long Lesions. Fabio Sandoli Brito Jr.
- Have We Improved the Outcomes in Saphenous Vein Graft Lesions? Luíz Piva Mattos
- Calcified Lesions: How to Optimize DES Outcomes. Fausto Feres
- What Is the Best Strategy for High-Risk Surgical Patients with Severe Coronary and Valve Disease? Deborah Nercolini
- Diffuse Disease: Where Is the Limit for Endovascular Approach? Helio Roque Figuira
- Q&A

PACARÁ AUDITORIUM

- **Joint Session SADI@SOLACI: Infections in Percutaneous Interventions**
Wednesday 4, 09:30-11:00

Chairmen: Juan Manuel Telayna, Héctor Laplumé

Panelists: Claudio Cigalini, Raúl Bretal, Juan Carlos Alico, Ariel Cesar Durán Reyes

Wednesday 4

Learning Objectives: To have a comprehensive review of the problem of infections associated to endovascular procedures. Guidelines from the Argentine Society of Infectology and suggestions from the regulatory agency.

- Access Site Infections. Fernando Cura
- Do We Need to Keep Reprocessing Materials?
 - The Opinion of the Infectiologist. Ricardo Durlach
 - The Opinion of the Interventional Cardiologist. José Gabay
- Regulatory Aspects to Reprocess Materials. Agustín Iglesias
- Stent Infections. Carlos Macaya
- Aortic Endoprosthesis Infection: What to Do and How to Avoid It. Lilita Clara
- Q&A and final message.

● **Ultimate Technology Symposium I (Supported by Unrestricted Grants of SOLACI's Sponsors)** Wednesday 4, 13:00-14:30

Chairmen: Darío Echeverri, Manuel Cano

Panelists: Oscar Alvarado, Ivo Petrov, Costantino Costantini Jr., Amalia Descalzo

- Firebird I and II. Chinese and Latin American Experience. Marco Wainstein. (Microport).
- NOGA XP for Cell Therapy. Marco Costa. (Cordis, Johnson & Johnson).
- Titan2 BAS. Israeli National Registry. Alberto Hendler. (Hexacath).
- STELLIUM Project. Gregory Starke. (CTP Medica).
- PROLimus. Eberhard Grube. (Biotronik).

● **Aortic Endoprosthesis: History and Evolution** Wednesday 4, 14:30-15:00

Chairman: Miguel Angel Riccitielli

Speaker: Juan Carlos Parodi

● **Ultimate Technology Symposium II (Supported by Unrestricted Grants of SOLACI's Sponsors)** Wednesday 4, 15:00-16:30

Chairmen: Gastón Dussailant Nielsen, Marcelo Halac

Panelists: Marcelo Bettinotti, Alejandro García Escudero, Rafael Moguel Ancheita, Pedro Hidalgo Useche

- SPIRIT Women Trial. Lilita Grinfeld. (Abbott Vascular).
- DREAMS: Drug-Eluting Absorbable Stent. Preclinical Data. Thomas Zeller. (Biotronik).
- AMICATH for Primary or Rescue PCI. Andrés Iñiguez Romo. (Iberohospitex).
- Solus Echinomycin-Eluting Stent. Adrián Ebner. (InSitu).
- New Tools for Below-The-Knee Interventions. Dierk Scheinert. (Invatec).

● **Ultimate Technology Symposium III (Supported by Unrestricted Grants of SOLACI's Sponsors)** Wednesday 4, 16:30-18:00

Chairmen: Carlos León, Gilberto Nunes

Panelists: Alejandro Martínez Sepúlveda, Marcelo Halac, Carlos Vozzi, Jorge Bordagaray

- IRIST: Pharmacocative Simvastatin-Eluting Stent. Eulogio García. (Iberohospitex).
- Paclitaxel Eluting Coronary Stentsystem euca TAX. Camouflage Proactive Coating. (Michael Giese. Eucatech).
- EXTREME Study: Titanox Coated Stent in Small Coronary Vessels. Raul Valdesuso. (Hexacath).
- FREEDOM. Eberhard Grube. (Biosensors).

SALÓN ALERCE

● **FREEDOM Trial (Investigators' Meeting)** Wednesday 4, 15:00-16:30

Chairman: Enrique Gurfinkel

Speaker: Valentín Fuster

SALÓN JACARANDÁ

● **Improving the Practice in Argentina** Wednesday 4, 09:30-11:00

Chairmen: Alberto Sampaolesi, Daniel Berrocal

Panelists: Jorge Belardi, Antonio Pocoví, Jorge Leguizamón, Guillermo Williams

Learning Objectives: To discuss what we are doing and how can we improve interventional cardiology in Argentina, regarding physicians, centers accreditation, quality control, reimbursement, etc.

- How to Accredit Physicians and Centers. What Kind of Regulations Should Be Implemented? Alberto Sampaolesi
- How to Avoid Destructive Competition. Jorge Baccaro
- Medical Evidence vs. Clinical Practice: How to Bring Them Closer. Jorge Belardi
- The Role of the Hospital. Gerardo Bozovich
- The Role of the Finance Manager. Gabriel Barbagallo
- The Opinion of a Foreign Practizing Expert. William O'Neil
- Q&A
- Final Message. Daniel Berrocal

● **Interventions for Clinical Cardiologists I (Sponsored by Boston Scientific)** Wednesday 4, 14:30-16:30

Chairmen: Darío Echeverri, Eduardo Mele

Panelists: Enrique Gurfinkel, Julio Bono, Marcelo Trivi, Anibal Damonte

Learning Objectives: To review what should be an optimal milieu for performing PTCA; recommendations for NON-ST ACS, left main and clinical practice with DES.

- Optimizing Primary PTCA: Considering Time and Facilities. William O'Neil
- Drug-Eluting Stents: Safety and Efficacy. Sigmund Silber
- Non-ST Elevation Acute Coronary Syndromes: When and How Should We Intervene? Expedito Ribeiro
- Left Main and Multiple Vessels Disease: When is PTCA a Good Strategy? Marco Antônio Perin
- Q&A

XIII SOLACI'07 - XVII CACI'07 Scientific Program

● SOLACI Guidelines

Wednesday 4, 16:30-18:00

Chairman: Daniel Berrocal

- How to Manage Antithrombotics in Percutaneous Interventions. Gilberto Nunes
- Safe and Rational Management of Contrast Agents. Ricardo Lluberas
- How to Choose the Best Approach for Each Clinical Case According to the Area Involved. Anibal Damonte
- Debate on How to Improve Methods, Topics Selection for Future Consensus and Work Groups.

SALÓN LENGA

● Protocol for Treatment with Primary Coronary Angioplasty Patients with Acute Myocardial Infarction in Galicia. (PROGALIAM Project)

Wednesday 4, 14:30-15:00

Chairman: Jorge Vaccaro

Speaker: Andrés Iñiguez Romo

● ProEducar Session: Discussion of Carotid Interventions

Wednesday 4, 15:30-17:00

Chairmen: Hugo Londero, José Gabay

Panelistas: Alberto Cremonesi, Marco Wainstein, León Valdivieso, Pedro Lylyk, Mario Fava

These sessions will be videotaped, edited and included in SOLACI's distance educational program as: "Case Discussions on the Web".

Thursday 5

PACIFICO AUDITORIUM

● Live Cases 1

Thursday 5, 08:00-09:00

Chairman: Carlos Zabal

Secretary: Alberto Sciegata

Panelists: Carlos Pedra, Alejandro Peirone, Ricardo Gamboa, César Esteves, Felipe Heuser

Operators: Trong-Phi Lê, Miguel Granja
Transmission Center: Hospital Italiano, Buenos Aires

● Live Cases 2

Thursday 5, 09:00-10:30

Chairman: Alexandre Abizaid

Panelists: Dariusz Dudek, Helio Roque Figueira, Darío Echeverri, William O'Neill, Santiago Gallo, Alfredo Rodríguez, Carlos Calderón Calvo, Juan Carlos Alico

Operators: Efraín Gaxiola, Jorge Belardi
Transmission Center: Instituto Cardiovascular de Buenos Aires, Buenos Aires

Operators: Fausto Feres, Hugo Londero
Transmission Center: Sanatorio Allende, Córdoba

Operators: Gaudencio Espinosa, Patricio Zaefferer
Transmission Center: Instituto Cardiovascular de Buenos Aires, Buenos Aires

● Live Cases 3

Thursday 5, 11:00-12:30

Chairman: Omar Santaera

Panelists: Christoph Nienaber, Manuel Cano, Ari Mandil, Pedro Hidalgo Useche, José Ribamar Costa, José Vaccaro, Dierk Scheinert, Frank Criado

Operators: Liliانا Grinfeld, Carlos Macaya
Transmission Center: Hospital Italiano, Buenos Aires

Operators: Marco Antônio Perin, Fernando Cura
Transmission Center: Instituto Cardiovascular de Buenos Aires, Buenos Aires

Operators: Esteban Mendaro, Hugo Londero
Transmission Center: Sanatorio Allende, Córdoba

● Lunch Symposium Real World DES Interventions (Sponsored by Cordis, Johnson & Johnson)

Thursday 5, 12:30-13:45

Chairman: Eduardo Sousa

- 5-Year Cypher Data in Brazil. Eduardo Sousa
- From Global to Local. Daniel Berrocal
- From Simple to Complex. Jorge Belardi
- From Evidence to Practice. Expedito Ribeiro

● **Live Cases 4**

Thursday 5, 14:00-15:30

Chairman: Costantino Costantini

Panelists: Igor Palacios, Francisco Ayala Riquelme, Carlos Szejfman, Alejandro Palacios, Joseph Babb, Alejandro Díaz, Julio Argentieri, José Condado

Operators: Carlos Macaya, José Gabay
Transmission Center: Hospital Italiano, Buenos Aires

Operators: Jean Fajadet, Lucio Padilla
Transmission Center: Instituto Cardiovascular de Buenos Aires, Buenos Aires

Operators: Eugenio Marchant Díaz, Hugo Londero
Transmission Center: Sanatorio Allende, Córdoba

● **Joint Session EuroPCR 2007@SOLACI Coronary & Peripheral Hot Topics from EuroPCR 2007**

Thursday 5, 16:00-17:30

Chairman: Jean Fajadet

- Coronary/Cardiac: Hot Topic Highlights from EuroPCR 2007.
Speaker: Jean Fajadet

- Peripheral: Hot Topics Highlight From EuroPCR 2007:
- Carotid Interventions.
- Critical Limb Ischemia

Speakers: Giancarlo Biamino, Alberto Cremonesi

● **SOLACI 2008 Presentation**

Thursday 5, 17:30-17:45

Speaker: Efraín Gaxiola

● **Live Cases 5**

Thursday 5, 17:45-18:45

Chairmen: Miguel Granja, Oscar Mendiz

Panelists: Alberto Sciegatta, José Alonso, Ricardo Gamboa, Carlos Vozzi, Guillermo Marchetti, Alfaro Marchena Noriega

Operators: Ari Mandil, Hugo Londero
Transmission Center: Sanatorio Allende, Córdoba

Operators: Alex Javois, Horacio Faella
Transmission Center: Hospital Italiano, Buenos Aires

● **Pediatric Conference: PFO Closure**

Thursday 5, 18:45-19:05

Chairman: Luis Alday

Secretary: César Esteves

- PFO Closure: When Is It Indicated?
Techniques and Outcomes. Ziyad Hijazi

ATLANTICO AUDITORIUM

● **Joint Session JIM@SOLACI: Bifurcation Lesions. How Far Are We From an Ideal Solution?**

Thursday 5, 08:00-09:00

Chairmen: Eberhard Grube, Ricardo Costa

Panelists: Víctor Bernardí, Alfonso Balaguer, César Pardiñas, Ricardo Lluberás

Learning Objectives: To learn how different approaches, techniques or devices can improve PCI outcomes for bifurcation lesions.

- One or Two Stents? When and How Should Be Used?
Ricardo Costa
- Do Dedicated Bare-Metal Stents Still Have a Key Role?
Marco Antônio Perin
- Dedicated DES for Bifurcations. Where Are We?
Eberhard Grube
- Q&A.

● **New and Not So New DES Programs Update I**

Thursday 5, 09:00-10:30

Chairmen: Eduardo Sousa, Ernesto Ban Hayashi

Learning Objectives: To understand which are the requirements for the new generation of DES. Biodegradable stent platforms overview. Limus and Taxol Family new DES.

- What Should We Ask to a New DES? From Pathology to Clinical Practice. Ron Waksman
- Limus Family. Luiz Piva Mattos
- Taxol Family. Expedito Ribeiro
- Biodegradable Stent Platforms. Ernesto Ban Hayashi

● **The Dark Side of DES**

Thursday 5, 11:00-12:30

Chairmen: Jorge Belardi, Amanda Sousa

Panelists: Igor Palacios, Alfredo Rodríguez, William O'Neill, Marcelo Queiroga

Learning Objectives: At the end of this session, the attendees should be able to understand the current limitations of DES, how to avoid and treat them. To obtain a Latin American perspective on DES cost effectiveness ratio.

- Update on Late and Very Late DES Thrombosis.
Sigmund Silber
- Antithrombotic Treatment. How Long Should It Be Used?
Marcelo Casey
- DES Restenosis: How to Avoid It and How to Treat It
Alexandre Abizaid
- Which Lesions Still Don't Have Good Results with DES?
Jean Fajadet
- Cost-Effectiveness in Single and Multiple Lesions. A Latin American Perspective. Juan José Arango
- Q&A

XIII SOLACI'07 - XVII CACI'07 Scientific Program

● Lunch Symposium

Carotid Stenting (Sponsored by Boston Scientific)

Thursday 5, 12:30-13:45

Chairmen: Pedro Lylyk, Carlos León

Panelists: Gustavo Lev, Costantino Costantini, Álvaro Razuk, Ari Mandil

- Which Patients Would Benefit From Carotid Stenting? Oscar Mendiz
- Which Stent and Distal Protection Device Should Be Used for Specific Lesions? Alberto Cremonesi
- Q&A.

● New and Not So New DES Programs Update II

Thursday 5, 14:00-15:30

Chairmen: Oscar Mendiz, Marco Costa

Learning Objectives: To understand which are the requirements for the new generation of DES. Alternative technologies.

- What Should We Ask to a New DES? The Cardiologist's Point of View. Sigmund Silber
- New Platforms. Eberhard Grube
- Prohealing. Marco Costa
- Statins Program. Eulogio García
- Titanium and Nitrous Oxide Stent Program. Pasi Karjalainen
- Future Programs. Alexandre Abizaid

● CRT@SOLACI: Left Main & Multiple Vessels Disease: Where Are We? Where Are We Going?

Thursday 5, 16:00-17:30

Chairmen: Ron Waksman, Alfredo Rodríguez

Panelists: Roberto Favaloro, Ricardo Iglesias, Daniel Navia, Miguel Ballarino.

Learning Objectives: To get comprehensive information on the current role of PCI in patients with left main & multiple vessels disease. To evaluate acute and long term outcomes.

- Update on DES Outcomes in Multiple Vessels Disease. Expedito Ribeiro
- Left Main Stenting Outcomes. Eulogio García
- DES or Bare Metal Stent for Multiple Vessels or Left Main Lesions? Augusto Pichard
- Clinical Follow-Up of Patients with DES in Multiple Vessels Disease or Left Main. Andrea Abizaid
- Which Patients Would Benefit from Multiple Vessels Disease PTCA? Alfredo Rodríguez
- Q&A

● Best Abstracts Session

Thursday 5, 17:45-18:45

Chairmen: Alexandre Abizaid, Helio Roque Figueira

Panelists: José Álvarez, Carlos Macaya, Andrés Iñiguez Romo, Igor Palacios

● Perspectives of the Intravascular Stent at the End of the Road

Thursday 5, 18:45-19:05

Chairman: David Vetcher

Speaker: Julio Palmaz

● SOLACI Assembly

Thursday 5, 19:05-20:00

BUEN AYRE C AUDITORIUM

● New Images Modalities

Thursday 5, 08:00-09:00

Chairmen: Pablo Bayol, Eduardo Picabea

Panelistas: Francisco Ayala Riquelme, Juan Manuel Telayna, Marco Costa, Pablo Pollono

Learning Objectives: To learn the applications in clinical practice of new MRI & MSCT technologies. To get comprehensive information on the latest developments in catheter-based images.

- MRI: Anatomy and Function. Diego Perez de Arenaza
- MSCT: Cardiac and Non-Cardiac Applications. Augusto Pichard
- Catheter-Based Images: Have We Moved Forward? Gastón Rodríguez Granillo
- Panel Discussion / Q&A

● Hot Debates I

Thursday 5, 09:00-10:30

- Should We Treat All Severe Asymptomatic Carotid Stenosis?

Chairman: Juan Carlos Parodi

- Pro: Alberto Cremonesi
- Con: Sebastián Ameriso
- Final Message. Juan Carlos Parodi

- Should We Treat Non-Complicated Type B Chronic Aortic Dissection?

Chairman: Marcelo Cerezo

- Pro: Christoph Nienaber
- Con: Frank Criado
- Final Message. Marcelo Cerezo

- Should We Use GP IIb/IIIa Inhibitors in All Patients with Acute Coronary Syndromes?

Chairman: Juan José Arango

- Pro: Joseph Babb
- Con: Carlos Macaya
- Final Message. Juan José Arango

● Joint Session: TEAM@SOLACI:

Current Approach for CTO
Thursday 5, 11:00-12:30

Chairmen: Eulogio García, Andrés Iñiguez Romo

Panelists: Rolando Loures Bueno, Alberto Sampaolesi, Gastón Dussailant Nielsen.

Learning Objectives: To help the audience with patient selection. What strategy, tools and techniques should be used for a successful and safe approach to treat CTO.

- Tips and Tricks to Select a Case for CTO Recanalization. Eulogio García
- New Tools for CTO Approach. How Safe and Effective Are They? Gerald Werner
- When Should the Procedure Be Stopped? Jeffrey Moses
- New Strategies for CTO Recanalization. Gerald Werner
- DES Outcomes for CTO. Should We Always Use Them? Luiz Piva Mattos
- Q&A

● **Lunch Symposium**
**The Road To Safer Angioplasties:
 New Coronary Stent Generations**
 (Sponsored by Terumo)
 Thursday 5, 12:30-13:45

Chairman: Jean Fajadet

- MATSURI Registry Results: 1-Year Follow-Up of Over 1,400 Patients Implanted with a New Stent. Eulogio García
- First Clinical Results of Tsunami Gold Implantation in Latin America. Ricardo Lluberas
- NOBORI I: New Generation of Drug-Eluting Stents. Clinical Results. Eulogio García

● **Joint Session CACCV@SOLACI:
 Thoracic Aortic Endovascular Repair**
 Thursday 5, 14:00-15:30

Chairman: Luis Frank, Claudia Rodrigues Alves

Panelists: Daniel Bracco, Hernán Bertoni, Gustavo Lev

Learning Objectives: To learn which patients would benefit from endovascular aortic repair, tips and tricks for successful procedures and management of acute and late complications.

- How to Select the Patient for Endovascular Approach. Frank Criado
- Acute and Chronic Type B Aortic Dissection: When and How to Approach It. Christoph Nienaber
- Tips and Tricks. Marcelo Ferreira
- Other Thoracic Aortic Pathologies. Claudia Rodrigues Alves
- Acute and Late Complications. Gaudencio Espinosa
- Q&A

● **Angiogenesis and Myogenesis**
 Thursday 5, 16:00-17:30

Chairmen: Julio Argentieri, Rafael Moguel Ancheita

Panelists: Carlos Trainini, Roberto Fernández Viña, José Vicario, Nelson Rodríguez

Learning Objectives: To learn about the relationship between basic research and clinical trials. To understand when a research is ready for clinical application. How to delineate these strategies.

- From Bench to Bedside: Can We Predict the Results? Santiago Miriuka
- A Critical Appraisal of Cell-Based Myocardial Repair. Luiz Henrique W. Gowdak
- A Critical Appraisal of Gene Therapy. Alberto Crottogini
- Cell Therapy Pitfalls. William O'Neill
- Gene Therapy Pitfalls. Diego Grinfeld
- Q&A

● **Abstracts Session I**
 Thursday 5, 17:45-18:45

Chairmen: Ernesto Ban Hayashi, Marcelo Ruda Vega

Panelists: Aníbal Damonte, Miguel Ángel Riccicelli, Gastón Dussailant Nielsen, Sergio Centeno

● **Coronary MSCT: Reality or Promise?**
 Thursday 5, 18:45-19:05

Chairman: Irving Peña

Speaker: Augusto Pichard

PACARÁ AUDITORIUM

● **Tips and Tricks for Non-Cardiac Interventions:
 My Top Ten**
 Thursday 5, 08:00-09:00

Chairmen: Hernán Chamorro, Francisco Carnevale

Learning Objectives: Expert's practical topics that can help the audience to avoid or solve a problem in similar situations.

- Carotid Stenting. Alberto Cremonesi
- Aortic and Iliac Stenting. Antonio M. Kambara
- Thoracic Aortic Stent Graft. Christoph Nienaber
- Renal Stenting. Valter Correia de Lima

● **Catheter-Based PDA Closure**
 Thursday 5, 09:00-10:30

Chairman: Luis Trentacoste

Secretary: José Alonso

- Experience with Nit Occlud. Pedro Mollón.
- Limitations and Complications with Nit Occlud. Alex Javois
- Limitations and Complications with Amplatzer. Carlos Zabal
- PDA Closure in Preterm Infants. Neil Wilson

● **Endovascular Valve Implantation**
 Thursday 5, 11:00-12:30

Chairman: Horacio Faella

Secretary: Esteban Vagnola

- Opportunity for Pulmonary Valve Replacement. Alejandro Peirone
- Experience in Pulmonary Valve Replacement. Ziyad Hijazi
- Melody Pulmonary Valve. Lee Benson
- Aortic Valve Implantation. Neil Wilson

XIII SOLACI'07 - XVII CACI'07 Scientific Program

● Lunch Symposium

VSD Closure with Nit Occlud. Global Experience. (Sponsored by PFM)

Thursday 5, 12:30-13:45

Chairmen: Miguel Granja, Trong Phi Lê

- Introduction, Development and First Experiences With Nit Occlud. Trong-Phi Lê
- Experience Closing VSD. Experience With Nit Occlud. Nit Occlud Advantages Over Other Devices. Miguel Granja
- Experience in Venezuela. Federico Borges
- Experience in Brazil. Luiz Carlos Simoes
- Discussion / Q&A

● Angioplasty in Newborns

Thursday 5, 14:00-15:30

Chairman: Lílana Ferrín

Secretary: Carlo Pilla

- Critical Pulmonary Valve Stenosis. José Alonso
- Critical Pulmonary Valve Stenosis. Experience in Chile. Felipe Heuser
- Critical Aortic Valve Stenosis. Alberto Sciegata
- Other Interventions. Ricardo Gamboa
- Post-Norwood Procedure Interventions. Lee Benson

● ASD Closure: Techniques, Results and Complications

Thursday 5, 16:00-17:30

Chairman: Miguel Granja

Secretary: Jesús Damsky Barbosa

- ASD Device Closure. New Devices. Ziyad Hijazi
- Tricks for ASD Closure with Amplatzer Device. How to Minimize the Complications. Miguel Granja
- ASD Closure with Helex Device. Larry Latson
- New Developments. Trong-Phi Lê
- Nightmare Cases in ASD Closure. Neil Wilson

● Abstracts Session II

Thursday 5, 17:45-18:45

Chairmen: Fabio Sandoli Brito Jr., Fausto Feres

Panelists: José Mangione, Diego Kirschmann, Costantino Costantini Jr., Adrián Ebner, Lílana Rojo

● Endovascular Aortic Repair: State of the Art

Thursday 5, 18:45-19:05

Chairman: Claudia Rodrigues Alves

Speaker: Christoph Nienaber

LENGA AUDITORIUM

● CoreValve ReValving™ System. Percutaneous Aortic Valve Replacement Evolving Into a Standard Cathlab Procedure (Workshop Sponsored by Latamprojects)

Thursday 5, 09:00-10:30

Chairman: Eberhard Grube

- Benefits of Percutaneous Aortic Valve Replacement.
- Review of the CoreValve ReValving™ System Technology.
- Identification of Appropriate Patient Criteria.
- Implantation Technique.
- Case Review and Discussion.

● Training and Accreditation

Thursday 5, 11:00-12:30

Chairman: Marcelo Ruda Vega, Alberto Sampaolesi

Panelists: José Mangione, Joseph Babb, Giancarlo Biamino, Efraín Gaxiola

Learning Objectives: to discuss how to train and accredit specialists according to different regions. To learn the utility of simulators.

- Training for New Specialists in Interventional Cardioangiology. Alejandro Cherro
- Ongoing Medical Education in Interventional Cardioangiology and Recertification. Ernesto Torresani
- Utility of Virtual Reality Simulators for the Above Mentioned Goals. Joseph Babb
- Training Requirements in Brazil. José Mangione
- Training Requirements in Mexico. Efraín Gaxiola
- EuroPCR Experience on Continuous Medical Education for Interventional Cardiologists. Giancarlo Biamino
- Q&A
- Conclusions. Alberto Sampaolesi, Marcelo Ruda Vega

● Abstracts Session III

Thursday 5, 17:45-18:45

Chairmen: Amanda Sousa, David Vetcher

Panelists: Jorge Mor, Humberto Casal Heredia, Ariel Durán Reyes, Nelson Rodríguez, Eduardo Magariños

JACARANDÁ AUDITORIUM

● ProEducar Session: Discussion of Coronary Interventions

Thursday 5, 09:00-10:30

Chairmen: Ricardo Sarmiento, Fernando Cura

Panelists: Eulogio García, Fabio Sandoli Brito, Costantino Costantini, Jorge Leguizamón

These sessions will be videotaped, edited and included in SOLACI's distance educational program as: "Case Discussions on the Web".

● Trial Design for Cardiovascular Interventions (Workshop Sponsored by TANGO CC)

Thursday 5, 14:00-15:30

Chairman: Lílana Grinfeld

Speakers: Arturo Cagide, Marcelo Halac

Panelists: Stephen Ellis, Jean Fajadet, Roxana Mehran, Jeffrey Moses, William O'Neill, Dariusz Dudek, Graciela Romero Julio Palmaz, Cecilia Bahit, Leonardo Gadaleta, Martín Seoane, Agustín Iglesias, Analía Perez

Thursday 5

- Selection of End Point for a Trial: Single vs Combined.
- Definition of Non-Fatal End Point.
- Mortality as End Point in Interventional Trials: Sample Size and Follow-Up Time.
- Selection of End Points and Population to Reduce Bias.
- Very Frequent Mild Events and Unfrequent Serious Events.
- Differences in Trials with Devices vs Drugs.

● **Percutaneous Aortic Valve Replacement: From Sternotomy to Minimal Invasive Procedure (Workshop Sponsored By Edwards Lifesciences)**

Thursday 5, 16:00-17:30

Chairmen: Alain Cribier, Liliana Grinfeld

Panelists: Daniel Berrocal, Carla Agatiello, Deborah Nercolini, Sergio Franco, Orlando Wender, Juan Krauss, Pablo Oberti, Mariano Falconi, Daniel Bracco

- What Are the Requirements Needed to Start a Transcatheter Aortic Valve Program? Carla Agatiello
- PAVR by Transfemoral Approach: Case Revision. Alain Cribier
- PAVR by Transapical Approach: Case Revision. Deborah Nercolini
- Conclusions:
 - From The Surgeon's Point Of View.
 - From The Cardiologist's Point Of View. Juan Krauss

● **Abstracts Session IV**

Thursday 5, 17:45-18:45

Chairmen: Antonio Pocoví, Oscar Alvarado

Panelists: Luis Flores, Ricardo Pastene, Luis Mercado, Daniel Mauro

ALERCE AUDITORIUM

● **Minimizing The Radiation Risk in The Catheterization Lab**

Thursday 5, 09:00-10:30

Chairman: Ariel Durán Reyes

Panelists: Aníbal Marraco, Alejandro La Pasta, Rubén Kevorkian, Jorge Skvarca, Jorge Blanco

Learning Objectives: How to reduce the radiation risks and how to protect patients and staff. A survey will be carried out at the end of the session.

- How to Protect the Staff? Elíseo Vañó Carruana
- How to Protect the Patient? Ariel Durán Reyes
- Suggestions to Improve the Quality-Radiation Ratio. Elíseo Vañó Carruana
- Q&A

● **Interventions for Clinical Cardiologists II (Sponsored by Boston Scientific)**

Thursday 5, 13:45-15:45

Chairmen: Carlos Rubio, Sergio Varini

Panelists: Raúl Rosental, Sergio Brieva, Adolfo Rodríguez, Enrique Fiakosky

Learning Objectives: Overview of several non-cardiac interventions, indications and clinical outcomes.

- Carotid Stenting: Where Are We? Alberto Cremonesi
- Endovascular Aortic Valve Replacement. Is It Real? Alain Cribier
- Endovascular Thoracic Aortic Repair. Is It the First Option? José Augusto Souza
- When and How Should We Intervene Claudicating Patients? Antonio M. Kambara
- Q&A

● **TCT-HORIZON (Investigators' Meeting and Cocktail)**

Thursday 5, 16:00 - 17:30

Hosts: Gregg Stone, Roxana Mehran, Jeffrey Moses

FOYER

● **Poster Session I**

Thursday 5, 10:30-11:00

Commentators: Omar Santaera, Fausto Buitrón, Marcelo Pettinari, Carlos Fernández Pereira, Mario Pieroni, Miguel Payaslian, Ricardo Clavijo, Ricardo Nauwerk, Miguel Miceli, Marcelo Notrica, Esteban Vagnola.

● **Poster Session II**

Thursday 5, 15:30-16:00

Commentators: Ernesto Torresani, César Pardiñas, Alejandro Álvarez Iorio, Marcelo Bettinotti, Juan Delgado Durán, Carlos Mauvecin, Pedro Lemos Neto, Humberto Casal Heredia, Pedro Zangroniz, Jesús Damsky Barbosa, Juan Carlos Alico.

Social Activities:

Closing Gala at Opera Pampa
(Sponsored by Cordis, Johnson & Johnson Company).
Shuttle available from Hilton Hotel.
Invitation Only

XIII SOLACI'07 - XVII CACI'07 Scientific Program

Friday 6

PACIFICO AUDITORIUM

● **Update on Interventional Pharmacology** Friday 6, 08:00-09:00

Chairmen: Alberto Suarez Nitola, Roxana Mehran

Learning Objectives: To up-date adjunctive drugs strategies. To learn how to select a drug/strategy in different clinical situations.

- Antiplatelet Therapy. Raúl Altman
- IIb/IIIa Inhibitors. Stephen Ellis
- Antithrombin. Gregg Stone

● **Live Cases 6** Friday 6, 09:00-10:30

Chairman: Luiz Piva Mattos

Panelists: Augusto Pichard, José Álvarez, José Condado, Francisco Paoletti, Eulogio Martínez, Victor Moles, Rubén Piraino

Operators: Oscar Mendiz, Carlos Fava
Transmission Center: Fundación Favaloro, Buenos Aires

Operators: Gerald Werner, Jorge Baccaro
Transmission Center: Instituto de Cardiología de Corrientes, Corrientes

Operators: Oscar Mendiz, León Valdivieso
Transmission Center: Fundación Favaloro, Buenos Aires

● **Live Cases 7** Friday 6, 11:00-12:30

Chairman: Jorge Leguizamón

Panelists: Jorge Antonio Miano, Esteban Mendaro, Alejandro González Estevez, Carlos Álvarez Iorio, Marcos Wainstein, Ron Waksman, Mario Fava.

Operators: Giancarlo Biamino, Gustavo Lev
Transmission Center: Fundación Favaloro, Buenos Aires

Operators: Marco Antonio Perin, Jorge Baccaro
Transmission Center: Instituto de Cardiología de Corrientes, Corrientes

Operators: Marcos Marino, Oscar Mendiz
Transmission Center: Fundación Favaloro, Buenos Aires

● **Lunch Symposium** **DES: From Practice to Evidence** **(Sponsored by Boston Scientific)** Friday 6, 12:30-13:45

Chairmen: Daniel Berrocal, Jorge Belardi

Panelists: Costantino Costantini, Juan José Arango, Miguel Ballarino, Ricardo Lluberás

- Current Evidence for DES. Sigmund Silber
- DES in the Daily Practice. The Importance of the Technique. Gregg Stone
- DES in Latin America. Daniel Berrocal
- Q&A

● **Joint Session TCT@SOLACI: Evidence-Based Medicine. Controversies and Progress in Interventional Vascular Therapies. The Year in Review.**

Friday 6, 14:00-15:30

Chairmen: Gregg Stone

Panelists: Roxana Mehran, Alexandre Abizaid, Jorge Belardi

- Controversies in Treatment of Coronary Artery Disease.
- Treatment of Stable CAD:
 - COURAGE in Perspective. Lessons Learned. Gregg Stone
 - Revascularization Will Improve the Quality of Life at No Cost to the Patient: ACME AVERT and others.
 - DES or BMS: How Do You Choose? The Pros and Cons. Roxana Mehran

● **Live Case 8**

Operators: Gregg Stone, Daniel Berrocal
Transmission Center: Hospital Italiano, Buenos Aires

Panelists: Roxana Mehran, Alexandre Abizaid, Liliana Grinfeld, Eduardo Sousa.

- Key Note Lecture: Valvular Heart Disease: The Year in Review: Progress Made. We Still Have a Long Way to Go. Martin Leon
- The Future of DES: Platforms, Drugs and More. Alexandre Abizaid

● **Live Cases 9** Friday 6, 16:00-17:30

Chairman: Expedito Ribeiro

Panelists: Andrés Iñiguez Romo, Juan Carlos Alico, Luiz Piva Mattos, Jorge Mor, Jorge Belardi, Fausto Feres, Jorge Bordagaray.

Operators: Carlos León, Jorge Baccaro
Transmission Center: Instituto de Cardiología de Corrientes, Corrientes

Operators: Eberhard Grube, Oscar Mendiz
Transmission Center: Fundación Favaloro, Buenos Aires

Operators: José Mangione, Carlos Rojas Matas
Transmission Center: Hospital Italiano de Buenos Aires, Buenos Aires.

● **Closing Ceremony and Round Table: A New Pandemia?** Friday 6, 17:30-19:00

Coordinator: Carlos Bertolasi

Speakers and Panelists: Sebastián Ameriso, Pablo Argibay, Liliana Grinfeld, Oscar Mendiz, José Navia, Juan Carlos Parodi, Florencia Rolandi, Marcelo Trivi

Final Message: Carlos Bertolasi

ATLANTICO AUDITORIUM

● **Joint Session SCAI@SOLACI** Friday 6, 08:00-09:00

Chairman: Joseph Babb

Learning Objectives: After attending this session, participants will be able to understand and discuss the results of recent key interventional trials and new consensus for DES usage. Evidence and expert opinions on adult structural heart diseases repair. Main topics of accredited training for US Interventional Cardiology training program.

- Review of Recent Interventional Trials. Ron Waksman
- Current Status of DES Usage and Guidelines. Fausto Feres
- ASD and PFO Closure: Current Status and New Devices in Adults. Ziyad Hijazi
- Current Status of Accredited Training in Interventional Cardiology in the US. Joseph Babb

● **Hot Debates II**

Friday 6, 09:00-10:30

- Should We Use DES in all Lesions?

Chairman: Eduardo Sousa
Pro: Fausto Feres
Con: Jean Fajadet
Final Message: Eduardo Sousa

- Late DES Events: Do They Modify the Indications?

Chairman: Ron Waksman
Yes: Igor Palacios
No: Gregg Stone
Final Message: Ron Waksman

- Are We Ready for Left Main Stenting?

Chairman: Jean Fajadet
Pro: Jeffrey Moses
Con: Pedro Lemos Neto
Final Message: Jean Fajadet

● **Non-Stent New Devices**

Friday 6, 11:00-12:30

Chairmen: Irving Peña, Alberto Suarez Nitola

Panelists: Alberto Licheri, Román Rostagno, Pedro Hidalgo Useche, Hernán Chamorro

Learning Objectives: After this session, participants will learn about new devices for CTO, abdominal stent grafts, left ventricular assist devices, imaging and will have a glimpse of the future of autologous by-passes.

- New Tools for CTO. Jeffrey Moses
- Aortic Stent Graft with Side Branches. Marcelo Ferreira
- PTCA with Left Ventricular Assist Device. Jeffrey Moses
- New Invasive Images. Augusto Pichard
- Autologous Bypass. Julio Argentieri
- Q&A

● **Lunch Symposium**

Endeavor Stent: Concept, Present and Future (Sponsored by Medtronic)

Friday 6, 12:30-13:45

Chairman: Roxana Mehran

- Drug Eluting Stents: Safety and Efficacy.
- The Endeavor Clinical Program: 1300 Patients with up to Four Years Follow-Up.
- Latin American Experience with Endeavor-5 Protocol.
- Endeavor Resolute Stent: Clinical Findings in 130 Patients.
- Discussion.

● **Case Review Session I: The Best of Cardiac Cases**

Friday 6, 14:00-15:30

Chairmen: José Mangione, Darío Echeverri

Panelists: Ronaldo Loures Bueno, Fabio Sandoli Brito Jr., Gilberto Nunes, Alejandro Palacios, Diego Grinfeld, Alejandro De La Casa, Khaled Al-Shaibi.

Learning Objectives: After discussing edited teaching cases, participants will have a broader knowledge how to approach challenging patients with coronary lesions. How to avoid or solve complications.

● **Joint session FAC@SOLACI: Non-ST Elevation Acute Myocardial Infarction**

Friday 6, 16:00-17:30

Chairmen: Ladislao Endrei, Joseph Babb

Panelists: Ernesto Ban Hayashi, Alfaro Marchena Noriega, Francisco Somoza Alvarenga, Juan Carlos Linares Casas

Learning Objectives: To obtain a critical appraisal of standard and new strategies, to approach patients with acute coronary syndromes. To discuss the use of the guidelines and which patients would benefit from PCI.

- Antithrombotics in Non-ST Elevation Acute Myocardial Infarction. Ernesto Paolasso
- Which Is the Current Role of Non-Invasive Coronary Angiography? Eduardo Picabea
- Biomarkers. How Do They Modify the Strategy? Julio Bono
- How Useful & Frequently Are Guidelines Used? Joseph Babb
- When and How to Use PTCA. Gilberto Nunes
- Q&A

BUEN AYRE C AUDITORIUM

● **Abdominal Aortic Repair**

Friday 6, 08:00-09:00

Chairmen: Hugo Londero, Claudia Rodrigues Alves

Panelists: Carlos De Luca, Eduardo Dulbecco, Esteban Mendaro, Daniel Sarti

Learning Objectives: All attendees will learn which patients would or should receive EVAR. Interventional cardiologists will learn tips & tricks and also how to recognize and manage acute and late complications.

- EVAR: Should We Only Treat High-Risk Surgical Patients? Juan Carlos Parodi
- Tips and Tricks. Frank Criado
- Acute and Late Complications. Gaudencio Espinosa
- Q&A

● **Joint Session Cleveland Clinic @ SOLACI**

Friday 6, 09:00-10:30

Chairman: Jorge Belardi

- Drug-Eluting Stents: An Update in 2007. Stephen Ellis
- Should We Abandon Distal Embolic Protection in Acute Myocardial Infarction? Fernando Cura
- Percutaneous Approach to Aortic Stenosis. Stephen Ellis

XIII SOLACI'07 - XVII CACI'07 Scientific Program

● **Joint Session Argentine Society of Diabetes@SOLACI. Optimizing Diabetic Patients' Treatment**

Friday 6, 11:00-12:30

Chairmen: José E. Costa Gil, Fausto Buitrón

Panelists: Marcelo Halac, José Peña Reyes, Miguel Larribau, León E. Litwak

Learning Objectives: To understand the problem of the diabetes pandemia; to highlight the value of early diagnosis and treatment of vascular complications, to discuss how to select the best strategy for coronary and non-cardiac revascularization.

- Significance of the Diabetes Pandemic. José E. Costa Gil
- Early Non-Invasive Diagnosis of Vascular Disease. León E. Litwak
- Can We Slow Down the Atherosclerotic Progression? Luis Guzmán
- Current Trends in Revascularization. Carlos Macaya
- Non-Cardiac Revascularization: Indications and Results. Ernesto Torresani
- Q&A

● **Lunch Symposium Expect More From DES (Sponsored by Abbott Vascular)**

Friday 6, 12:30-13:45

Chairmen: Liliana Grinfeld, Carlos Macaya

- The Science Behind Xience V SPIRIT III: 9-Month Results. Alexandre Abizaid
- Is DES Safe? Renu Virmani
- Q&A

● **How to Approach High-Risk Patients**

Friday 6, 14:00-15:30

Chairmen: Eugenio Marchant Díaz, Fausto Feres

Panelists: José Oscar Gómez Moreno, John German Gaibor, Jorge Guasch, Juan Delgado Durán

Learning Objectives: how to approach high-risk Lesions and patients.

- Contrast-Induced Nephropathy: Identifying and Managing Patients at Risk. Roxana Mehran
- Carotid and Coronary Disease. How to Approach It? Manuel Cano
- Myocardial Revascularization in Elderly Patients. Rogerio Sarmiento Leite
- Small Vessels and Diffused Disease. Paulo Caramori
- Percutaneous Approach of Pulmonary Embolism. Mario Fava
- Q&A

● **Case Review Session II: The Best of Non-Cardiac Cases**

Friday 6, 16:00-17:30

Chairmen: Marco Antônio Marino, Antonio Pocoví

Panelists: Marcelo Queiroga, Pedro Lemos Neto, Antonio M. Kambara, Luis Guzmán, Hernán Bertoni, Carlos Rojas Matas, Esteban Mendaro.

Learning Objectives: After discussing edited teaching cases, participants will learn how to approach non-cardiac challenging patients. How to avoid or solve complications.

PACARÁ AUDITORIUM

● **The Role of Stents in Congenital Cardiopathies**

Friday 6, 08:00-09:00

Chairman: Luis Alday, Felipe Heuser

Secretary: Alberto Molina

- Pulmonary Branch Stenosis. Neil Wilson
- Aortic Coarctation. Alex Javois
- Aortic Coarctation: Experience in Argentina. Miguel Granja.
- Right Ventricular Outflow Tract. Larry Latson

● **Update on Hybrid Procedures**

Friday 6, 09:00-10:30

Chairman: Carlos Zabala

Secretary: Jesús Damsky Barbosa

- Update on Hybrid Procedures. Lee Benson
- Experience in Argentina. Luis Trentacoste
- Hybrid Procedures in Latin America. Is It Necessary to Have a Hybrid Suite to Carry Out Procedures? Carlos Pedra

● **VSD Closure**

Friday 6, 11:00-12:30

Chairman: Pedro Mollón

Secretary: Luis Trentacoste

- Experience in Perimembraneous VSD Closure with Amplatzer Device. Carlos Zabala
- VSD Closure with PFM Device. Trong-Phi Lê
- VSD Closure Experience in Latin America (Nit Occlud). Luiz Carlos Simoes

● **Interventional Treatment of the Fontan Procedure**

Friday 6, 14:00-15:30

Chairman: Carlos Pedra

Secretary: Alejandro Peirone

- Fontan Assessment. Larry Latson
- Failing Fontan. Alex Javois
- Closing Fenestration. Horacio Faella
- Fontan Completion. Lee Benson

JACARANDÁ AUDITORIUM

● **ProEducar Session: Discussion of Aorta and Lower Limbs Interventions**

Friday 6, 09:00-10:30

Chairmen: Hugo Londero, Sergio Brieva

Panelists: Marcelo Cerezo, Claudia Rodrigues Alves, Francisco Carnevale, Frank Criado, Hernán Bertoni

These sessions will be videotaped, edited and included in SOLACI's distance educational program as: "Case Discussions on the Web".

LENGA AUDITORIUM

- **Radial Approach Simulator: A Tool To Optimize The Learning Process (Workshop Sponsored by Terumo)**
Friday 6th, 11:00-12:30

Chairman: Jean Fajadet

- New Tools for Transradial Approach Training. Terumo Transradial Approach Simulator Presentation. Jean Fajadet
- Advantages of Transradial Approach. Learning Curve. Juan Gaspar
- New Terumo Transradial Approach Products. Roberto Botelho

ALERCE AUDITORIUM

- **Interventions for Clinical Cardiologists III (Sponsored by Boston Scientific)**
Friday 6, 13:45-15:45

Chairmen: Ricardo Iglesias, Raúl Altman

Panelists: Anibal Damonte, Carlos Fernández Pereira, Arturo Fernández Murga, Alfredo Bravo

Learning Objectives: to discuss different drug therapies in patients who receive percutaneous interventions.

- Update on Clopidogrel Associated to PTCA. Amanda Sousa
- Prasugrel: Is It a Good Alternative? Raúl Altman
- Update on IIb/IIIa Inhibitor. Pedro Lemos Neto
- Can We Replace IIb/IIIa Inhibitors with Bivalirudina in All Cases? José Mangione
- Low Molecular Weight Heparin. Advantages Over Unfractionated Heparin During PTCA. Marcelo Casey
- The Role of Statins After Endovascular Procedures. Ricardo Rey
- Q&A

FOYER

- **Poster Session III**
Friday 6, 10:30-11:00

Commentators: Rafael Moguel Ancheita, Juan Fernández, Alejandro Escudero, Pablo Kantor, Javier Woscoboinik Marcelo Menendez, Carlos De Luca, Daniel Paolantonio, Alberto Tamashiro, Santiago Gallo, Marcelo Rivarola

- **Poster Session IV:**
Friday 6, 15:30-16:00

Commentators: Carlos Leonardi, Ricardo Sarmiento, Alejandro Cherro, María Rosa Aymat, Eugenio Marchant Díaz, Jorge Mor, Darío Echeverri, Carlos Gadda, Leonardo Abdo, Oscar Ortiz Baeza, Guillermo Pacheco, Alfredo Bravo, Alberto Molina.

XIII SOLACI'07 - XVII CACI'07 Scientific Program for Nurses

BUEN AYRE A & B AUDITORIA

Wednesday 4

● **12:00 -13:00 Opening Session**

Speakers: Roberto D'Agosto
Alejandro Incarbone

● **13:00 -13:45 Nursing Care of Cardiovascular Patients**

Chairmen: Daniel Maggio
Juan Cañete

Speaker: Alfredo Culquicondor
Rosa Ruiz Piñeiro

- Importance of Nursing Care.
- Latin American Nursing Approach.
- Round Table: Regina Yarza, Robert Domínguez

● **15:15 -16:45 Management of Cardiovascular Patients in Latin America**

Chairmen: Juan Alberto Díaz
Regina Yarza

Speakers: Beatriz Morales
Ramón Aibar
Regina Yarza
Ariel Luero

- Symptomatology to Diagnose Acute Myocardial Infarction.
- Treatment of Patients with Acute Coronary Syndromes in Hospitals without a Cath. Lab.
- Rescue PTCA.
- Primary PTCA.
- Round Table: Hot Debate on of Acute Myocardial Infarction Treatment.

● **16:45 -18:00 Patient-Professional Relationship**

Chairmen: Alejandro Incarbone
Daniel Maggio
Ambar Medina

Speakers: Roberto D'Agosto
Rosa Ruiz Piñeiro
César Echegaray

- Life Tyle Modification in Cardiovascular Patients.
- Importance of the Nurse/Technician-Patient Relationship.
- Psychological Care of Patients Post-Therapeutic Procedures.

Thursday 5

● **8:00 - 9:00 Contrasts Mediaand Their Nephrotoxicity**

Chairmen: Patricia Leishner
Janeeth Moscoso

Speakers: Patricia Leishner
Alberto Zichert
Enrique Arias
Janeeth Moscoso

- Experience with Contrast Media in the Cath Lab.
- Experience with Contrast Media in 64 Multislice CT.
- A Different Latin American Reality with Contrast Media.

● **9:00 - 10:30 Comparison of Diagnosis Methods in Interventional Cardiology**

Chairmen: Alejandro Incarbone
Claudio Llauro

Speakers: Hugo Corradini
Carlos Bordarampe
Alberto Zichert
José Uribe
Mirian Cabrera

- Nuclear Medicine.
- NMR and CT in Congenital Disease.
- 64 Multislice CT.
- Coronary Angiography.
- Intravascular Ultrasound.
- Round Table.

● **10:30 -11:00 Break**

● **11:00 - 12:30 Treatment of Aortic Disease**

Chairmen: Gustavo Diez
Claudio Rodríguez

Speakers: Adriana Lima
Heriberto Hernandez
Carmen Fusco
Victoria Orsi
Germán Gonzalez

- Clinical Diagnosis of Aortic Disease.
- Specificity and Sensibility of Non-Invasive Methods.
- Kinds of Devices and Selection.
- Surgical Treatment of Aortic Disease.
- Aortic Endovascular Repair.

● **12:30 -14:00 Abstracts Session**

● **14:00 -15:30 Interventional Radiology**

Chairmen: Alejandro D'Aiello
María Inés di Pasquo

Speakers: Fernando Orsi
Alejandro D'Aiello
Roberto D'Agosto

and Technicians

- Angioplasty in Transplanted Kidney.
- Uterine Embolization.
- Endovascular Treatment and Prevention of Obstetric Haemorrhage.
- Round Table: Trauma Emergency.

● 15:30 -16:00 Break

● 16:00 -17:30 Peripheral Vascular Disease

Chairmen: Gustavo Bulacio
José Luis Avalos

Speakers: Leonardo Strati
Robert Dominguez
Miguel Martínez
Gustavo Bulacio

- Carotid Angioplasty Update.
- Endoluminal Treatment of Lower Limbs.
- Pressure Ulcer Treatment.
- Evolution of Gene Therapy for Peripheral Angiogenesis.

● 17:30 -17:45 Break

● 17:45 -19:00 Congenital Cardiopathies

Chairmen: Alberto Zichert
Mauricio Salinas

Speakers: Gustavo Conde Ramirez
Leonidas Londoño Olaya
Yudelca Perez
María Teresa Velazco Livia
Mauricio Salinas

- Percutaneous Closure of Defects: PDA, ASD, VSD, PFO.
- Angioplasty and Valvuloplasty. Endoluminal Alternative for Aortic Coarctation, Pulmonary Branch Stenosis, Aortic and Pulmonary Valvuloplasty.
- Interventions in Complex Pediatric Congenital Cardiomyopathies.
- Nursing Care Post-Congenital Cardiopathy Treatment.

Friday 6

● 08:00 -10:30 Neurointerventions Latin American Approach to Hemorrhagic Stroke

Chairmen: Carlos Maryszczyn
Luis Taramelli

Speakers: Natalia Cárdenas
Prof. Jorge Alvarado
Robert Dominguez
Ivanise Gomes

- CT and NMR.
- Hemorrhagic Stroke Diagnosis.
- Endovascular Treatment.
- Care of Neurological Patients Post-Endovascular Treatment.

● 10:30 -11:00 Break

● 11:00 -12:30 Professional Stress: Burn Out Syndrome

Chairmen: Alejandro Incarbone
Claudio Llaurodo

Speakers: José Boggiano
Alejandro Incarbone
Ambar Medina
Daniel Meza

- Work-Related Stress: How to Deal With It?
- Psychosocial Factors That Influence Professional Stress
- What is Latin America Doing to Eradicate This Phenomenon?
- Round Table.

● 12:30 -14:00 Oral Abstracts Session

● 14:00 -15:30 Management and Organization of a Cath Lab in Latin America

Chairmen: Roberto D'Agosto
Prof. Simone De Souza

Speakers: Prof. Irian Guidugli
Prof. Simone De Souza

- Resources Management in a Cath Lab.
- Work Organization in a Cath Lab.
- Round Table: Special Situations in Latin American Labs.

● 15:30 -16:00 Break

● 16:00 -16:45 Nurses and Technicians Current Issues

Chairmen: Silvia Beati
Roberto D'Agosto

Speakers: Jorge Antonio Rafael Aguilar
Robert Dominguez
Rosa Ruiz Piñeiro
Regina Yarza
Simone Fantin De Souza
Erick Jaramillo

● 16:45 -17:00 Closing Ceremony

Temas libres / Abstracts Presentation

Oral Oral Session

Jueves 5 / Thursday 5

**MEJORES TEMAS LIBRES
BEST ABSTRACTS SESSION**

**ATLANTICO AUDITORIUM
17:45-18:45**

*Presidentes / Chairmen:
Alexandre Abizaíd, Helio Roque Figueira*

*Comentadores / Panelists:
José Álvares, Carlos Macaya,
Andrés Iñiguez Romo, Igor Palacios*

411

Long-term Clinical Outcomes of the DESIRE (Drug Eluting Stents In the Real world) Registry.

Souza, Amanda y colaboradores

430

Cual es la Evolución Tardia de Alcoholización de la Rama Septal en la Miocardiopatía Hipertrófica Obstruktiva?

Cano, Nicolás y colaboradores

463

Successful Treatment of Refractory Angina (RA) by Minimally Invasive Delivery of Autologous Bone Marrow Mononuclear Cells (ABMMC) Mid-term Follow-up.

Tuma-Mubarack, Jorge y colaboradores

210

Avaliação a Longo Prazo da Valvoplastia Mitral por Balão. Fatores de Risco para Óbito e Eventos Mayores e Influência do Escore de Ecocardiográfico.

P Borges, Ivana y colaboradores

318

Comparación del Tratamiento Médico y la Revascularización Coronaria en Pacientes con Lesiones Coronarias Moderadas y Valores de la Reserva de Flujo Fraccionada Miocárdica entre 0.75 y 0.80.

Courtis, Alejandro y colaboradores

382

Nuevo Tratamiento Percutáneo con Dispositivo Intra Seno Coronario. La Cardiopatía Dilatada con Insuficiencia Mitral (Carillon - CDI) Seguimiento de 6 Meses.

Ebner, Adrián y colaboradores

**SESION DE TEMAS LIBRES I
ABSTRACTS SESSION I**

BUEN AYRE C AUDITORIUM
17:45-18:45

Presidente / Chairman:
Ernesto Ban Hayashi, Marcelo Ruda Vega

Comentadores / Panelists:
Aníbal Damonte, Miguel Angel Riccitelli,
Gastón Dussaillant Nielsen, Sergio Centeno

460
Heart Failure Improvement Alter Autologous Bone Marrow Mononuclear Cells (ABMMC) Transplantation.

Tuma-Mubarack, J. y colaboradores

476
Impacto Tardío dos Stents Farmacológicos em Pacientes Diabéticos - Registro DESIRE - DM.

Moreira, Adriana y colaboradores

361
Estudo Inicial com o Stent Liberador de 17 β Estradiol (ETHOS™) Avaliação Clínica, Angiográfica e Pelo Ultra-som Intracoronário.

Maia, Julio y colaboradores

342
A Tri-dimensional Intravascular Análisis of the New Zotarolimus-eluting Stent (ZoMaxx).

Costa Jr, José y colaboradores

350
Aterectomía Rotacional Ascendente Retrógrada en Isquemia Crítica de Miembro Inferior por Lesiones Difusas Infrapatelares.

Dini, Andrés y colaboradores

322
Reserva del Flujo Fraccionada para Determinar la Severidad de las Estenosis Moderadas del Tronco Común: ¿Deberíamos evaluar las Arterias Descendente Anterior y Circunfleja en Todos los Casos?

Courtis, Alejandro Javier y colaboradores

**SESION DE TEMAS LIBRES II
ABSTRACTS SESSION II**

PACARA AUDITORIUM
17:45-18:45

Presidentes / Chairmen:
Fabio Sandoli Brito Jr, Fausto Feres

Comentadores / Panelists:
José Mangione, Diego Kirschmann,
Constantino Costantini Jr, Adrián Ebner,
Liliana Rojo

464
Experiencia Preliminar com Novo Dispositivo para Tratamiento Percutâneo de Oclusões Coronarianas Crônicas. Estudio RAPID (Revascular Active Percutaneous Interventional Device) CTO: Primeiro

Chamié, Daniel y colaboradores

296
Aumento da Penetração dos Stents Farmacológicos na América Latina. Registro SOLACI 2005 e 2006.

Souza, Amanda y colaboradores

136
Direct stenting after thrombus removal before primary angioplasty in acute myocardial infarction: a sub analysis of the The DEAR-MI (Dethrombosis to Enhance Acute Reperfusion in Myocardial Infarction) study.

Silva Orrego, Pedro y colaboradores

498
Aposição Incompleta Persistente e Tardía Após Implante de Stents com Sirolimus e Zotarlimus: Incidência e Evolução Clínica.

Siquiera, Dimytri y colaboradores

483
Stents farmacológicos no tratamento de pontes de safena sem proteção distal - Registro DESIRE - SVG.

Moreira, Adriana y colaboradores

507
Angioplastia Carotídea com Stent e Sistemas de Proteção Cerebral. Uma Análise Tardia Comparativa dos Pacientes Sintomáticos versus Assintomático Pré-procedimento.

Sánchez, Andrés y colaboradores

Temas libres / Abstracts Presentation

SESION DE TEMAS LIBRES III ABSTRACTS SESSION III

LENGA AUDITORIUM

17:45-18:45

Presidentes / Chairmen:

Amanda Sousa, David Vetcher

Comentadores / Panelists:

Jorge Mor, Humberto Casal Heredia, Ariel Durán Reyes, Nelson Rodríguez, Eduardo Magariños

524

Tratamiento Endovascular do Endoleak Tardío após Implante de Endoprótese de Aorta Abdominal Infra-renal ? Análise com Angiotomografia Computadorizada e Aortografia com Subtração Digital.

Sánchez, Andrés y colaboradores

538

Valor Prognóstico dos Critérios de Obesidade em Pacientes Submetidos à Angioplastia Transluminal Coronariana em População Tratada em Centro de Referência.

Estival Tarastchuk, José Carlos y colaboradores

566

Relación Entre el Índice de Masa Corporal y la Concordancia de la Anatomía Coronaria y Estudios Funcionales.

Arellano, Juan y colaboradores

468

Influencia de los sistemas de protección accesorios en Laboratorios de hemodinamia durante cine angiografía coronaria. Análisis con aplicación de fantomas de Plaxiglas.

Fabri, Daniella y colaboradores

446

Effect of Adventitial Neovascularization on Plaque Remodeling, Inflammation and Composition in a Porcine Model of Complex Atherosclerosis.

Alviar, Carlos L. y colaboradores

435

Safety and Efficacy of Low Dose Unfractionated Heparin and Tirofiban During Percutaneous Coronary Interventions.

Tuma-Mubarak, Jorge y colaboradores

SESION DE TEMAS LIBRES IV ABSTRACTS SESSION IV

JACARANDA AUDITORIUM

17:45-18:45

Presidentes / Chairmen:

Antonio Pocoví, Oscar Alvarado

Comentadores / Panelists:

Luís Flores, Ricardo Pastene, Luís Mercado, Daniel Mauro

416

Ensayo clínico controlado para determinar la utilidad del bicarbonato de sodio en la prevención de la nefropatía por medio de contraste en pacientes con riesgo intermedio y alto sometidos a coronariografía diagnóstica y/o intervencionismo coronario .

Miranda-Malpica, Emma y colaboradores

434

Remodelado Ventricular Progresivo Post-Ablación Spetal por Alcohol en la Miocardiopatía Hipertrofica Obstructiva.

Fortunato de Cano, Silvia Judith y colaboradores

328

Sítio de Flexión de la Arteria Poplitea.

Tamashiro, Gustavo A y colaboradores

375

Reto farmacológico con adenosina en pacientes adultos con cardiopatía congénita asociada a Hipertensión arterial pulmonar grave como factor pronóstico de de éxito quirúrgico

Uriona Villarroel, Juan Hedí y colaboradores

340

Assessing the relationship between quantitative coronary angiography and intravascular ultrasound and defining the best surrogate of target-lesion revascularization.

Costa Jr., José de Ribamar y colaboradores

363

Non-invasive coronary angiography by 64-row multidetector CT using a gadolinium contrast agent.

Carrascosa, Patricia y colaboradores

Posters Posters Session

Jueves 5 / Thursday 5

**SESION DE POSTERS I
POSTER SESSION I**

**FOYER
10:30 - 11:00**

*Comentador / Panelist:
Esteban Vagnola*

399

Cateterismo Intervencionista em Recém-nascidos e Lactantes de Muito Baixo Peso: Resultados Atuais.
Pilla, Carlo y colaboradores

299

Procedimento Híbrido Para Oclusão da Comunicação Interatrial (CIA) Sem Uso de Circulação Extracorpórea em Lactente com Pneumopatia Crônica.
Pedra, Simona y colaboradores

209

Cierre percutáneo del ductus arterioso con dispositivo NIT OCCLUDER (PFM) desde Marzo 1998 hasta Diciembre 2006 "Hospital Militar Dr. Carlos Arvelo" Fundacardín Unidad de Hemodinamia
Salas Cañizales, Ana Maria y colaboradores

SESION DE POSTERS IV
POSTER SESSION IV

FOYER
15:30 - 16:00

Comentador / Panelist:
Alberto Molinari

298
Oclusão Percutânea de Anastomose de Blalock-Taussig Modificado com Coils de Gianturco.

Pedra, Carlos y colaboradores

302
Implante de stent para coartação da aorta em crianças < 12 anos.

Pedra, Carlos y colaboradores

101
Cierre percutaneo del ductus arterioso permeable en adultos.

Rios Mendez, Raul y colaboradores

Temas libres / Abstracts Presentation

Comentador / Panelist:
Alejandro Cherro

315
Cierre Percutáneo de Fenestraciones en Circulación tipo Montan
Alonso, José Luis y colaboradores

94
Abciximab en Intervencionismo Coronario Percutáneo en pacientes añosos con Infarto de Miocardio: nueva estrategia de administración.
Kabbani, Zuheir y colaboradores

Comentador / Panelist:
Aldo Rodríguez Saavedra

198
Resultados Imediatos e Evolução Intra-Hospitalar Após Intervenção Percutânea de Artéria Renal. Análise uni e Multivariada das Variáveis Estudadas.
T Sandoval Peixoto, Ricardo y colaboradores

200
Reestenose após intervenção coronária percutânea. Estudo clínico, angiográfico, de procedimento e polimorfismos
C. Sandoval Peixoto, Edison y colaboradores

240
Síndrome con supradesnivel del ST y DIABETES.
Codutti, Oscar y colaboradores

Comentador / Panelist:
Jorge Iravedra

203
Valvoplastia Mitral com Balão Único. Evolução a Longo Prazo e Fatores de Risco para Óbito e Eventos Maiores.
P Borges, Ivana y colaboradores

Comentadores / Panelists:
Carlos Leonardi, Darío Etcheverri

520
Resultados Intrahospitalarios de la Angioplastía Coronaria en Pacientes Mayores de 75 años.
Alvarez, Carlos Alejandro y colaboradores

530
Fístulas Coronarias como Hallazgo en Pacientes Sometidos a Coronariografía.
Hernandez Chica, Cesar Augusto y colaboradores

Comentadores / Panelists:
Aquiés Sarmiento, Pablo Liva

560
Cinecoronariografía con Bajas Dosis de Heparina.
Tejerina, Fernando Daniel y colaboradores

348
Relación de las Medidas Ecocardiográficas y Angiográficas del Ductus Arterioso. Variación Interobservador en Pacientes Pediátricos.
DeCaro, Adalgisa y colaboradores

Comentador / Panelist:
Leonardo Abdo

445
Angioplastia de Urgencia en Infarto Agudo de Miocardio Complicado.
Pollono, Pablo Maximiliano y colaboradores

452
Avaliação do Escalonamento no Implante de Stent Imposto Pelo Sistema Nacional de Saúde Brasileiro.
Meireles, George y colaboradores

Comentadores / Panelists:
Rosa Aymat, Jorge Mor

219
Tratamiento de bifurcaciones con Stent Frontier. Técnica y resultados a largo plazo.
Garcia, Eulogio y colaboradores

235
Nueva dosis de enoxaparina durante la intervención coronaria percutánea electiva. Deambulación temprana, tiempo de coagulación activado y seguridad.
Molina Maldonado, Juan Pablo y colaboradores

Comentadores / Panelists:
Carlos Gadda

277
La aspirina en diabéticos, y la utilidad del tiempo de sangrado.
Delgado Leal, Luis y colaboradores

185

Trombosis Aguda, Subaguda y Tardía en Pacientes con Angioplastia Coronaria con Stents.

Grinfeld, Diego y colaboradores

161

Evolución Alejada de los Pacientes Diabéticos y no Diabéticos con Reestenosis Difusa Intrastent Tratados con Stent Liberador de Drogas.

Leguizamon, Jorge y colaboradores

Comentadores / Panelists:

Oscar Ortiz Baeza, Guillermo Pacheco

97

Tratamiento percutáneo de las fístulas coronarias sintomáticas.

Kabbani, Zuheir y colaboradores

325

Lack of Differences by Gender in a Retrospective Cohort of Patients who underwent a planned PTCA in a Community Hospital.

Agatiello, Carla y colaboradores

Comentadores / Panelists:

Alejandro Cherro, Alfredo Bravo

275

Asociación de Hemoglobina Glucosilada, glucosa postprandial a 2 horas y microalbuminuria, con la gravedad de la enfermedad arterial coronaria.

Muñoz, Elías y colaboradores

252

Comparação entre Stents Eluídos e Convencionais em Uniarteriais.

Ferreira, Esmeralci y colaboradores

Comentadores / Panelists:

Guillermo Pacheco

429

Un Programa Activo de Angioplastia Primaria Cancela el "Efecto Fin de Semana".

Telayna, Juan Manuel y colaboradores

Comentadores / Panelists:

Ricardo Sarmiento, Alfredo Bravo

171

Sexo Feminino como Fator Independente de Risco na Evolução Imediata e a Médio Prazo após a Intervenção Coronária Percutânea P.

T Sandoval Peixoto, Rodrigo y colaboradores

Comentador / Panelist:

Jorge Iravedra

403

Angioplastia Carotídea en Pacientes Diabéticos: Comparación entre el Sexo Masculino y Femenino.

Fava, Carlos Miguel y colaboradores

454

INTERVENÇÃO CORONÁRIA PERCUTÂNEA NO INFARTO AGUDO DO MIOCÁRDIO COMPLICADO COM CHOQUE CARDIOGÊNICO.

Assad, João Alexandre y colaboradores

Comentador / Panelist:

Alejandro De la Casa

387

Impacto de la Diabetes en Pacientes con Infarto Agudo de Miocardio Sometidos a Angioplastia Primaria.

Perez Baliño, Pablo y colaboradores

311

Importancia de la Angioplastia primaria con trombo-aspiración con catéter Export en la prevención de la embolización distal y no reflow, en pacientes con infarto agudo de miocardio y obstrucción total de la arteria coronaria culpable.

Alvarez, Carlos Alejandro y colaboradores

77

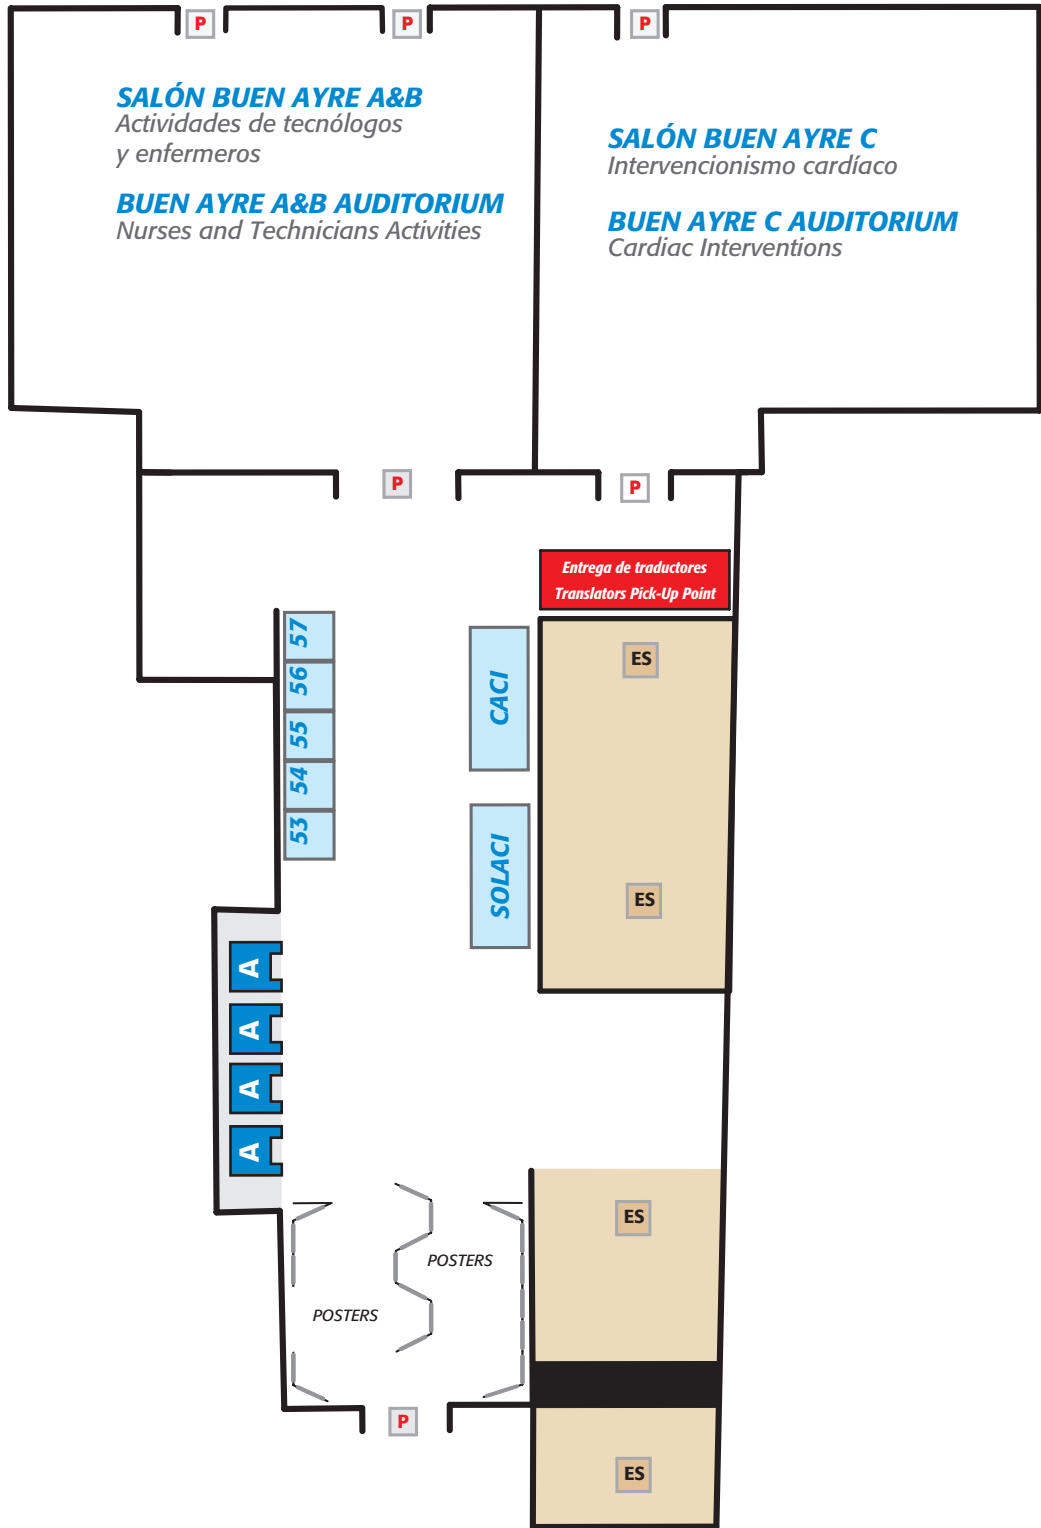

Implante direto de Stent na angioplastia primária.

Santos, Marcio y colaboradores

Tours Pre y Post Congreso / Pre and Post Congress Tours

Cataratas del Iguazú / Iguazú Falls

Cataratas Iguazú: La más espectacular vista imaginable, donde el río encuentra sus picos y cascadas de hasta 80 metros de altura. El clima subtropical y la vegetación hace que del rocío de las aguas se formen arcoiris añadiendo un efecto increíble.

Importante: Por favor

chequear si necesita Visa de Turista para ingresar a Brasil .
www.conbrasil.org.ar.

The most spectacular landscape you can imagine. This is the place where the Iguazú River peaks at 80-meters high and cascades downwards. The lavish vegetation is amazing. The subtropical climate and the dew create charming rainbows.

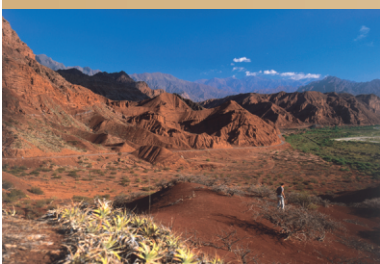

Important note: please check if you need a tourist visa to visit the Brazilian side of the falls www.conbrasil.org.ar.

Paquete incluye - Package includes:

- Ticket Aéreo Buenos Aires / Iguazú / Buenos Aires
Buenos Aires / Iguazú / Buenos Aires flights
- Traslados aeropuerto / hotel / aeropuerto
Airport / hotel / airport transfers
- Alojamiento por 2 noches.
Accommodation for 2 nights
- Excursión a Cataratas lado Argentino.
Half-day tour on the Argentine side of the falls.
- Excursión a Cataratas Lado Brasileiro.
Half-day tour on the Brazilian side of the falls.
Entrada al Parque Nacional - Entrance fee to the National park

Salta

Salta "La Linda". Su nombre deriva del vocablo aymará "sagta", que significa la muy hermosa. Es la ciudad que conserva el mayor patrimonio de la época colonial. Su plaza central concentra edificios significativos como la Catedral y el Cabildo, que alberga en su interior el Museo Histórico del Norte; la

Casa de Uriburu y el Museo de Bellas Artes. La Iglesia San Francisco posee una torre de 53 m, una de las más altas de América. El Convento San Bernardo, actual monasterio carmelita, es la construcción más antigua de la ciudad; se destaca por su portal de madera de algarrobo tallada.

Salta "La Linda". Its name comes from the Aymará word "sagta", which means "the beautiful one". This city has the best preserved colonial architecture in the country. Its most significant buildings surround the main square: the Cathedral, the Cabildo or Town Council (which houses the Museo Histórico del Norte (North Historical Museum)); Uriburu's House and the Museum of Fine Arts. San Francisco's church has one of the highest church towers in America (53 meters) and the San Bernardo Abbey belongs to the Carmelite Order.

San Carlos de Bariloche

Uno de los centros vacacionales más importantes en el sur Argentino. Sus parques nacionales, con sus bellezas naturales (lagos y bosques) se pueden apreciar mediante excursiones opcionales específicas, como ser el tour por los 7 lagos.

Located at Nahuel Huapi National Park, on the northern shore of the Nahuel Huapi Lake, San Carlos de Bariloche is one of the most important tourist centers in the country. Its incredible flora & fauna, lakes, mountains, extensive variety of trees and flowers can be observed during a tour around the Seven Lakes area.

Paquete incluye / Package includes:

- Ticket Aéreo Buenos Aires / Bariloche / Buenos Aires
Buenos Aires / Bariloche / Buenos Aires flights
